GlobalMET INDIA CONFERENCE “Novotel”, Juhu, Mumbai on 25th February 2023

GlobalMET is an association registered in Hong Kong, with consultative status at the IMO, (International Maritime Organization) carrying out activities and research in the field of maritime training and education.

GlobalMET is currently involved in a number of projects, sub-committees and working groups with the IMO including MASS (Maritime Autonomous Surface Ships). Naturally, none of this would have been possible, if not for the efforts of our members who include a number of trainers and training institutions.

GlobalMET regularly conducting conferences in Mumbai with approximately 200 delegates from both India and abroad. The delegates are mainly from maritime and shipping background and are from the elite section of the society and are well placed in the upper class of socio-economic strata of India.

When and Where?

On 25th Feb 2023, Saturday at Novotel JUHU, Mumbai
Event: Conference from 09:00 hrs to 17:30 hrs
Cocktails and Dinner from 19:00 hrs onwards

How can you benefit from the conference?

- You may set up a stall in the conference venue to promote your product / services.
- Participating by sponsoring some event or by joining as partner.

You will be able to display your services, product and may interact and network with delegates to take your business to a next level.

Please be guided by the seminar event and sponsorship details as attached.

GENESIS OF

GlobalMET

Maritime Education & Training

GlobalMET is a Maritime Education and Training provider's association which started its operations in the Asia Pacific region and has now rapidly grown to become "One Global Voice" for matters relating to Maritime Education and Training (MET). GlobalMET is the only Global Association which is managed and run by the MET providers themselves.

In December 2002, GlobalMET was incorporated in Australia as AMETIAP (Global) Ltd.

"The name Global Maritime Education and Training Association", with the working name "GlobalMET" and a new logo, were adopted in 2006, to reflect the growing global role with more members based outside the Asia Pacific region."

In February 2007, the registered name in Australia was changed to 'GlobalMET Limited'.

In the year 2008, GlobalMET achieved the NGO status at IMO and a representative attends IMO Committee meetings dealing with maritime education and training.

Today, GlobalMET enjoys membership of members across 22 economies globally including India.

Aims and Objectives

The establishment of GlobalMET arose from the participants' desire to support the aims and objectives of IMO for 'safer ships and cleaner oceans' and recognition of:

- The vital importance of maritime education and training in fulfilling the needs of expanding trade and economic growth;
- The urgent need for collective efforts in maritime education and training to promote greater safety at sea and protection of the marine environment.

GlobalMET's objectives are to:

- Provide a forum for the exchange of views among members;
- Foster, develop and maintain close cooperation between and among members on matters relating to maritime education and training, including maritime research and development and other matters of mutual and/or collective interest;
- Extend assistance consistent with its policies and capabilities to any member upon the latter's request;
- Formulate a common stand on issues of interest related to maritime education, training, research and development;
- Improve, or assist in improving, the services provided by members through the efficient and economic utilisation of resources;
- Represent the general membership in its collective dealings with regional and international organisations;
- Acquire, collate, process and disseminate relevant data and material of common interest to all members.
